## *Product Instructions*

**20-907**

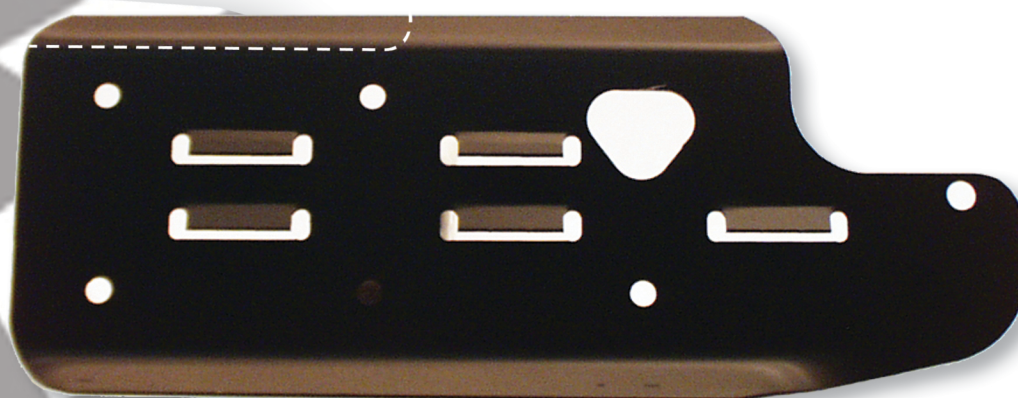

### **Small Block Chevy Replacement Windage Tray**

This tray is designed to replace the stock stud mounted trays which come on many crate engines. Stock dipstick clearance is provided for right side dipstick blocks.

Will fit stock oil pans and most aftermarket oil pans. Some aftermarket pans may require modification. See Below.

If you have difficulty installing in an aftermarket oil pan check this area for interference.

This edge of tray may need to be trimmed to clear.
