Product Instructions

22-629 Ford FE Remote Oil Filter Adapter

The bolt holes on this adapter are counter sunk to provide a clean installation as well as to proper orientation to which side goes to the block.

Be sure to mount this adapter with the pressure port oriented closest to the heads.

Note: We included a 1/8" NPT port to allow for installation of an oil temperature or oil pressure sensor. If you do not wish to use this port be sure to install the provided plug using thread sealing tape.
